## OUR PHILOSOPHY OF EDUCATION

Our Center for Early Childhood Education opens a window on the world for each child through:

The Joy of Music

The Beauty of Art

The Magic of Literature

The Spontaneity of Dramatic Expression

The Excitement of Scientific Discovery

These experiences enable children to grow to their maximum potential socially, emotionally, intellectually, and physically. As skills and interest develops, self-confidence grows. Children learn to work and play cooperatively with others. They learn to better understand and express their feelings. They develop body awareness through both small and large muscle activities. Symbolic play and art help children to move from the world of make-believe to the world of words in reading and writing.

At The Music Settlement, we find no greater challenge or no greater love than to guide children along this wonderful journey. When children attend The Music Settlement, we open their eyes, ears, and minds to their own abilities and the world around them.
